

Pakistan Albinism Society

Let's Change Struggle Into Success

Pakistan Albinism Society is Pakistan's only non-profit working for the cause of the rare genetic condition called albinism. Our aim to spearhead awareness and advocacy about albinism in all over the Pakistan. We want to create a safe and helpful environment for people with albinism to handle all kinds of difficulties they're facing. (PAS) wants to make better social, emotional and physical life of People with albinism. The most important thing is Pakistan Albinism Society is not officially registered on national level but we are still working hard to give a better platform. (PAS) just trying to together all people with albinism and fight for the right. There are many people connected with Pakistan Albinism Society everyone is working individually.

- . We don't know the actual figures but there are more than 30,000 people with albinism in Pakistan
- . A total lack of melanin, a generic condition called albinism, people are extremely sensitive to the sun People with albinism have very light skin hair and eyes and low vision
- . Most children with albinism have 'normally' pigmented parents
- . Children and young adults often feel discriminated in schools colleges even in universities and also in Their relatives because of their appearance and low vision but our family members are very supportive and giving us a better environment
- . The government of Pakistan and the people are not taking interest in that issue, there are many national and international organizations working but never highlights the issue.
- . People with albinism are often shy and reserved
- . Awareness in society about the condition is almost negligible
- . Bringing together friends and families to share their stories and support one another.
- . Here in Pakistan people with albinism are also facing problems regarding marriage most of people are avoiding to marry with albino girl.
- . There are also some families in Pakistan who think that people with albinism do not have the ability to do anything in their own life.
- . People with are also ignored by society.
- . Pakistan Albinism Society and member are still finding person with albinism in Pakistan we hope that we will find many and we are willing to help them.

We have already reached out to over above 70 people.

With your support, we can certainly do more.

Join our cause to promote awareness about Albinism and rare genetic condition in Pakistan and the world, one step at a time.
